# ROLL-UP DOORS

MADE BY  
MUELLER

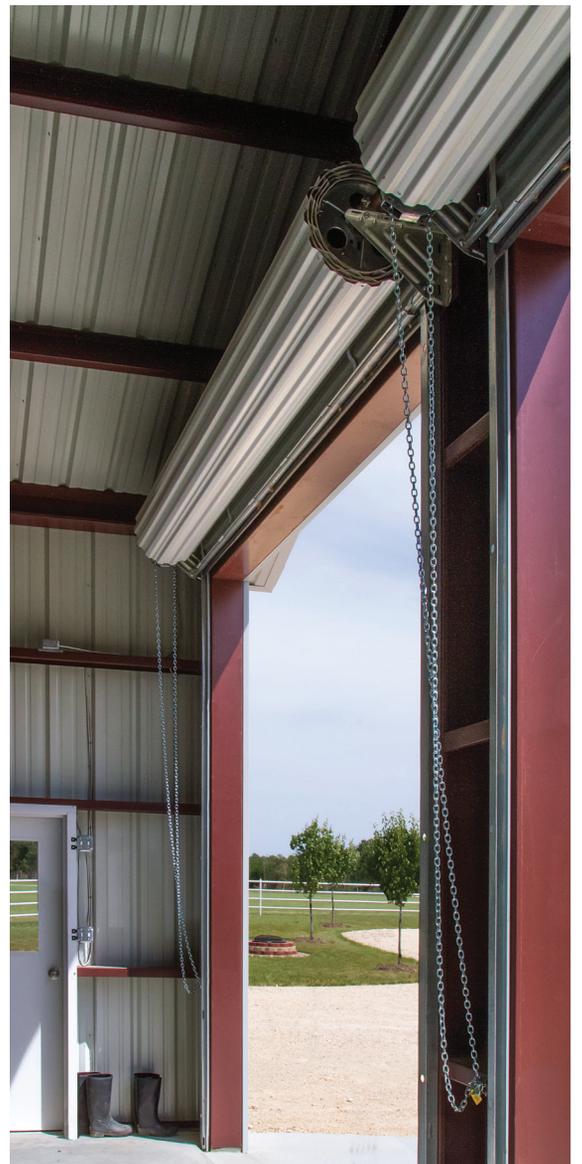

## Everything You Want in a Metal Roll-Up Door

- Durable Construction
- Quiet Operation
- Easy Installation
- Long-Lasting Performance

Select from a wide range of sizes and designer colors to complement your Mueller Mini-Storage projects.

## Here's why you should choose a Mueller Roll-Up Door

- Tension Tube – for even distribution of spring torque, providing longer life & less down sag.
- Larger Springs – for durability and long-lasting performance.
- Dual Cam Tension Support Bracket – provides easier spring adjustment.
- Bearings – mounted from the inside out to provide fail safe conditions.
- Stronger Bottom Bar – galvanized steel bottom bar with a built-in stop plate, enhancing rigidity and strength.
- Stronger Curtain – available in many colors.
- Deeper Guide – Up to 3.5" deep, heavy duty galvanized steel.
- Wind Certified Options Available.

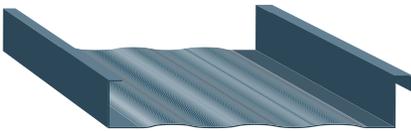

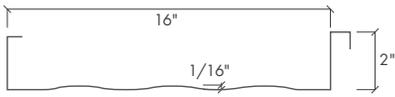

# PANEL PROFILES AND COLORS

Our premium steel building panels offer incredible versatility, durability and beauty, making them a great solution for commercial applications. With bold profiles and many color choices to choose from, you can get the look you desire while achieving outstanding structural performance.

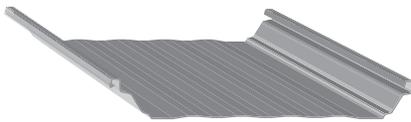

## Mueller Panel Benefits:

- Up to a 40-Year Limited Paint Warranty
- Hail Resistant - Underwriters Laboratories Class-4 Rating
- Wind and Fire Resistant
- Commercial Grade Steel

### MLK PANEL

### MTL PANEL

### R & PBR PANELS

### SSP PANEL

### U & PBU PANELS

### CORR & CPB PANELS

Mueller has the right to discontinue colors without notice. Not all colors are available in every panel. ‡ Galvalume Plus has no uniformity of appearance guarantee. Each individual sheet, even upon delivery, may have a different color, gloss, sheen, texture or spangled appearance. If uniformity of appearance is required, a painted product is required.

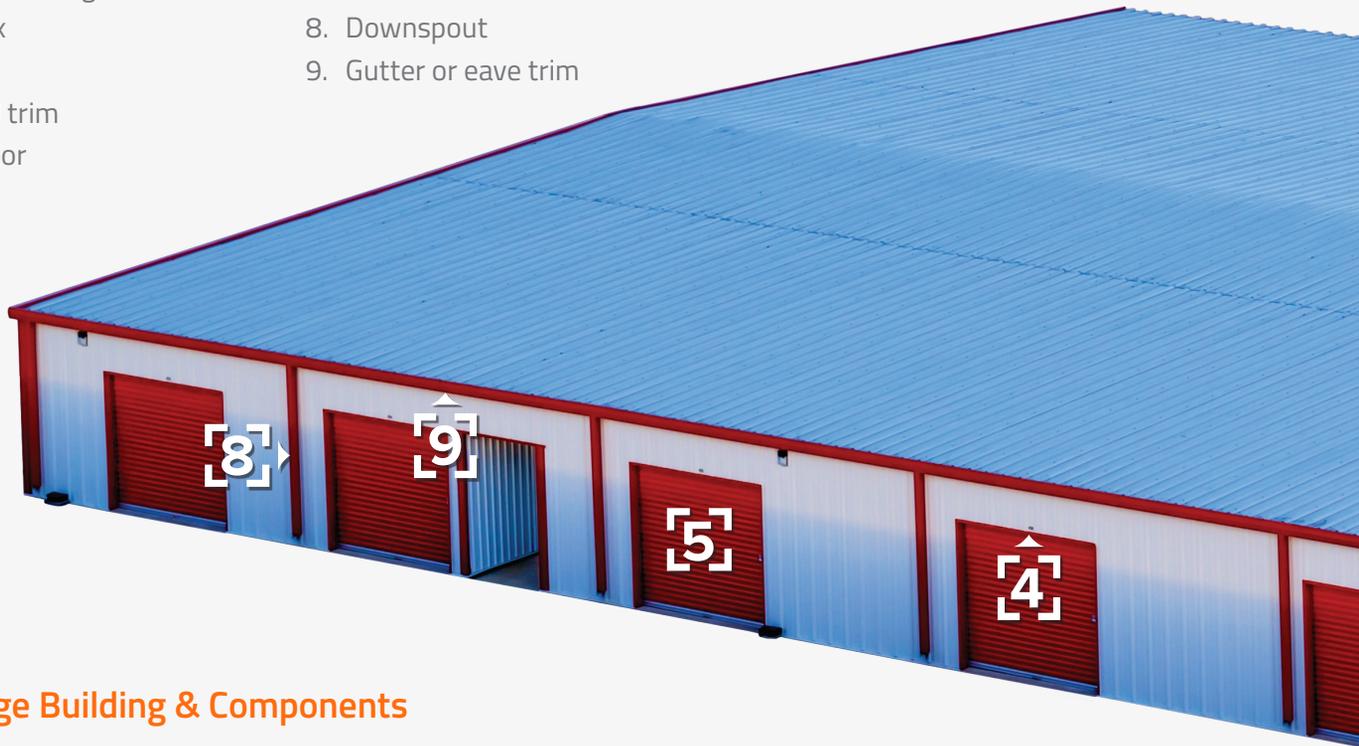

# COMPONENTS BY MUELLER
